

MASTER OF ART IN **TECHNOLOGY EDUCATION**

NORTH CAROLINA A&T STATE UNIVERSITY **SCHOOL OF GRADUATE STUDIES**

RESEARCH AREAS

- Pre-Engineering Education
- Student Learning
- Curriculum Integration
- Student Assessment
- Parental Involvement
- Supervision and Administration

FEATURES OF INFORMATION TECHNOLOGY

- Preparing 21st century teachers
- Online - reaches the State and region
- Aligned with the NC Department of Public Instruction
- Part of an NCATE accredited unit

The Master of Art in Technology Education prepares both technology education and trade and industrial education teachers for work in the public schools. In Phase I, earn your initial teaching license. In Phase II, earn your master's level teaching license.

FUNDING OPPORTUNITIES

The University currently funds some assistantships and may have financial assistance for tuition remission and stipends. Reduced tuition may be available through the NC Model Teacher Consortium. The University's Office of Financial Aid may also have assistance opportunities. Financial aid is based on merit and availability of funds.

EMPLOYMENT OPPORTUNITIES

Graduates of the program find employment in the public schools as teachers. Many of our graduates go on to doctoral work at universities such as Purdue University, Indiana State University, and others.
