# Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

## Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

### What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### [What are CIP Codes?](#)

Do participants earn a degree upon completion of the program?

# Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

## Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes  
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes  
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes  
 No  
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes  
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes  
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes  
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes  
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

NC A&T State University partners with several school districts where many of our graduates secure employment. Representatives from these LEAs serve on the Council for Educator Preparation Programs and College of Education Advisory Board as well as program-specific advisory councils. Additionally, annual focus groups are conducted with clinical educators (P-12 teachers) and administrators to identify strengths and weaknesses of our preparatory program. These data are used to improve the quality of our Educator Preparation Programs. All general education candidates are required to take coursework in ethics of teaching, culturally relevant pedagogy, and differentiated instruction among other courses that focus on the importance of understanding the learner, the learner's context, the school's context, and ways to alter instruction, the environment, and content information to meet the needs of diverse learners. The preparatory model is driven by an equity framework where fairness and responsiveness to individual learners is the primary focus. During clinical field experiences, candidates are strategically placed in diverse settings to ensure they are equipped to work with children in all environments.

## Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

## Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in mathematics in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

3. Did your program meet the goal?

 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

## Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in mathematics in 2019-20? If no, leave the next question blank.

Yes

No

8. Describe your goal.

Our Mathematics Education program is designed to prepare students for careers as 9th-12th mathematics teachers by providing both a strong foundation in mathematical content and pedagogical experience in the classroom. Last year, our goal was to ensure that all students felt prepared for the Praxis II exam through the establishment of tutoring and review opportunities.

## Set Next Year's Goal (2020-21)

9. Will your program prepare teachers in mathematics in 2020-21? If no, leave the next question blank.

Yes

No

10. Describe your goal.

Since instituting our review opportunities aimed at preparing students for the Praxis II exam, we hope to achieve a 100% pass rate next year.

2. Describe your goal.

Our goal for our Biology Education program last year was to achieve a 100% Praxis II first time passing rate and that candidates will be confident and prepared to teach day 1.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

Our Biology Education program prepared teachers in Biology Education in 2018-2019. We had two prospective teachers that completed our Biology

Education program in 2018-2019. Description of strategies used to achieve our goal in our Biology Education program included test preparation workshops, summer boot camps, and professional development workshops based on needs expressed by candidates. A few examples of workshop topics included developing a study plan, resume writing and planning innovative lessons.

**5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:**

We provided on-going advising and check-ins, which proved to be helpful for our candidates. Also, the study sessions provided our candidates with the opportunity to ask questions and get guidance.

**8. Describe your goal.**

As we continue our efforts with the aforementioned programs, we believe that candidates in our program will be able to achieve a 100% Praxis II first time pass rate as well as a 100% edTPA pass rate.

## Set Next Year's Goal (2020-21)

**9. Will your program prepare teachers in science in 2020-21? If no, leave the next question blank.**

- Yes  
 No

**10. Describe your goal.**

Our goal for our Biology Education program is to maintain both a 100% Praxis II first time passing rate as well as a 100% edTPA passing rate.

## Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

**Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.**

In order to complete this section, you may find it helpful to review your goals in your 2019 report. ## Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in special education in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes  
 No

2. Describe your goal.

Our goal for last year was to ensure that MAT Special Education students are placed in diverse field experiences where they can gain exposure to the various delivery models of Special Education across elementary, middle, and high school as well as the disability category type.

3. Did your program meet the goal?

- Yes  
 No

4. Description of strategies used to achieve goal, if applicable:

Our Special Education program prepared teachers in Special Education in 2018-2019. We had four prospective teachers that completed our Special

Education program in 2018-2019. Special Education coursework is scaffolded throughout the MAT Special Education program to promote an in-depth developmental understanding of individuals with disabilities as compared to typically developing k-12 students. Course development and realignment is an ongoing process.

**5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:**

We found it very beneficial for Special Education faculty to attend professional development trainings, participate in district, state, and national level meetings and conversations. These efforts allowed faculty to stay abreast of policy changes and updates as they fulfill their teaching obligations. In response to the Praxis and Pearson testing requirements, several study sessions and resources materials have been made available to all candidates. At the MAT level, students are given the option of adjusting their plan of study, in order to ensure successful matriculation and passing of all required licensure exams.

**6. Provide any additional comments, exceptions and explanations below:**

## Review Current Year's Goal (2019-20)

**7. Is your program preparing teachers in special education in 2019-20? If no, leave the next question blank.**

- Yes  
 No

**8. Describe your goal.**

This year, we would like to maintain the relationships that were established last year that allowed our program to provide diverse learning experiences to candidates. We also aim to further these connections so that all candidates have seen at least 3 different delivery models of Special Education by the time that their field experience is complete.

## Set Next Year's Goal (2020-21)

**9. Will your program prepare teachers in special education in 2020-21? If no, leave the next question blank.**

- Yes  
 No

**10. Describe your goal.**

With the development of new field connections this year, we would like to evaluate each candidates experience through a survey that will be sent out after each experience is complete. Through this, we will ensure a robust Special Education exposure to our candidates early in their training to become teachers.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. ([§205\(a\)\(1\)\(B\)](#))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

## Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes  
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes  
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes  
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes  
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

MAT students who are lateral entry enter the public school having learned what attributes of technology promote effective learning in the classroom. In addition, they are well equipped to use technology to examine content more critically, solve problems, and establish reliability. Key to the use and application of technology to collect, manage, and analyze data and effectively integrate it into the classroom, is the College of Education's model elementary classroom. This classroom is designed for MAT lateral entry students to practice and teach in a simulation space that mirrors a traditional classroom setting. This simulation classroom is vital to MAT methods training and further use by MAT teachers of record. Candidates have access to a variety of instructional technologies including, (1) a computer lab with the latest education software, (2) an interactive smartboard with a wide variety of educational resources included, (3) a class set of iPad minis that integrate with the interactive smart board, and (4) ELMO clickers that allow elementary students to poll interactively and simultaneously for immediate feedback. In order to provide feedback from observers and generate discussion, the model classroom is equipped with an interactive camera system that allows observers to view the lesson conducted in the model classroom remotely via a television. MAT lateral entry teachers of record can bring their elementary students to the model classroom to take advantage of the latest technology, software, and other educational materials. Moving forward, faculty in the Educator Preparation Program will integrate the use of candidate-directed video of their instruction and analysis of their video using the technology Go React that allow faculty to provide feedback to candidates at select points of their recordings. Additionally, faculty will integrate more technologically based assessment solutions into the candidate preparation model so

candidates can hone their ability to assess P-12 student learning via technology. In the MAT program, EDPR 615 Assessment of Learning develops candidates as assessment leaders by exploring how teachers use technology to collect, manage, and analyze student data to improve learning. In the “Tracking, Analyzing, and Communicating Student Data” assignment candidates report how teachers use technology to support and improve student learning.

# Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

All educator preparation candidates participate in immersion experiences in public school contexts where they must accommodate students with special needs. During pre-clinical practice experiences, our graduate candidates also engage in coursework (SPED 661 Introduction to Exceptionalities) where they learn more about best practices with content and pedagogy to engage diverse learners. The Educator Preparation Program requires candidates to produce signature assignments that demonstrate their awareness of their context and their learners. It also requires their ability to plan instruction and layout the learning environment to engage all learners. Most recently, edTPA has been added to reflect and assess the candidates' ability to plan (Task 1), instruct (Task 2), and assess (Task 3).

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Graduate candidates are prepared to develop, implement and monitor Individualized Education Plans for Students with disabilities as defined in IDEA. Throughout Special Education course work and field experiences, candidates are exposed to all necessary components of the IEP according to IDEA and the North Carolina Department of Public Instruction Policies and Procedures Manual.

#### c. Effectively teach students who are limited English proficient.

All candidates are required to take coursework in ethics of teaching, culturally relevant pedagogy, and differentiated instruction among other courses that focus specifically on instructing a student with limited English. These courses emphasize the importance of understanding the learner, the learner's context, the school's context, and ways to alter instruction, the environment, and content information to meet the needs of diverse learners.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

Candidates complete the education Teacher Performance Assessments (edTPA) as part of their general professional education core coursework. The edTPA requires graduate candidates to address the varying cognitive levels, special needs, and performance abilities of learners within their classrooms through thoughtful and strategic instructional planning. Candidates must provide credible evidence of their ability to facilitate learning by developing significant, challenging, and appropriate learning goals consistent with their program area Standard Course of Study or Essential Standards. Using pre-assessment data, candidates must design and implement a unit plan that utilizes differentiated lesson plans responding to candidate performance data. Throughout the unit, candidates must use multiple formative assessments that demonstrate student learning, and they must post-assess student understanding and skills at the conclusion of the unit. Candidates analyze this data to determine the extent of student growth throughout the unit; and then they must reflect on their instruction to articulate ways that they would improve their instructional practice in the future. In addition, candidates enrolled in the MAT Special Education program will construct a Professional Development Plan, demonstrating proficiency as an

effective instructional leader and ability to exert a positive influence on their teacher colleagues. Candidates will submit a portfolio which reflects completed works during the MAT program with a projection for professional growth during their first 3 years of teaching as licensed special educators in K-12 classroom settings. The Professional Development Plan will embed existing scholarly research to substantiate methodologies that the candidates will engage in to analyze P-12 students' prior knowledge, utilizing formative and summative assessment data, and deliver responsive instruction using research-based strategies. Candidates will also provide evidence of professional development activities related to the classroom community which extends student learning, aids in school improvement, and demonstrate knowledge of diverse students, cultures, and global issues.

**b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**

Graduate candidates are prepared to develop, implement, and monitor Individualized Education Plans for Students with disabilities as defined in IDEIA. Throughout Special Education course work and field experiences, candidates are exposed to all necessary components of the IEP according to IDEIA and the North Carolina Department of Public Instruction Policies and Procedures Manual.

**c. Effectively teach students who are limited English proficient.**

All candidates are required to take coursework in ethics of teaching, culturally relevant pedagogy, and differentiated instruction among other courses that focus on the importance of understanding the learner, the learner's context, the school's context, and ways to alter instruction, the environment, and content information to meet the needs of diverse learners.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Throughout the Professional Education Program, the development of professional educators at North Carolina A&T is interwoven into the core principles of the “Aggie Educator” and Aggie Educators are Assessment Leaders, Global Thinkers, Galvanizing Visionaries, Inclusive Agents of Change, Equitable Educators and Advocates, and Transformative Scholars. These core principles are bound and operationalized via a conceptual framework that ensures the Educator Preparation Program produces high quality educators for 21st-century classrooms. This framework emphasizes the specialized discipline knowledge, masterful content pedagogical skills, instructional leadership, and data literacy. Ultimately, the appreciation and application of students' cultural assets that highly effective educators must possess to improve the learning context, improve the teaching approach, and to improve student learning.
