North Carolina Agricultural and Technical State University Two-Year Readmission Policy

Any previously enrolled undergraduate student who has not been enrolled at North Carolina Agricultural and Technical State University for at least two (2) calendar years (24 consecutive months) may be eligible for one readmission under the “Two-Year Readmission Policy.” To be eligible for this policy, the student must meet all readmission requirements.

Under the “Two-Year Readmission Policy”, only previously taken courses in which a grade of ‘D’ or better was earned will be counted toward graduation. The computation of the cumulative GPA for students who are readmitted under this policy will begin at the time enrollment is resumed after readmission. This policy will not, however alter the student’s original academic record. If admitted under this policy, the student will return under an academic probation status and must maintain a cumulative GPA of 2.00 or greater.

All students readmitted under this policy, in consultation with their academic advisor, must develop an Academic Plan of Action (APA) for the first semester that they are readmitted. The student, the academic advisor, the academic unit’s retention coordinator and the Office of Enrollment Management will receive copies of the APA for information and monitoring compliance.

A notation stating that the Two-Year Readmission and Forgiveness Policy has been applied will be added to the student's transcript.

The decision to seek readmission under the “Two-Year Readmission Policy” must be made by the student at the time they seek readmission to the University. Once made, that decision is irrevocable.

Statement of Policy Understanding

The above policy has been thoroughly explained to me by an academic advisor and I fully understand the requirement of readmission under the Two-Year Readmission Policy.
